

Street School Mentor & Mentee Agreement

Street School’s mentoring program is comprised of volunteers in the community who meet for one hour a week with a Street School student. These volunteers complete mentor training and are cleared through an OSBI background check before meeting with their mentees. The mentors may meet with their mentee in the school building or they may walk to a nearby location (Will Rogers Methodist Church, Braden Park or Tally’s restaurant). Students may need to make-up classroom work that was missed during the mentor meeting. However, when possible, students will be excused from their classroom assignments during the time of the mentor meeting.

When the mentors arrive in the building, they go to the main office and their mentee will be called out of class. The number of students who will have a mentor depends upon the number of volunteers that we have from the community. If a student requests a mentor and there is no one available, the student is placed on a waiting list until a good match becomes available.

By signing below, you agree to allow your Street School student meeting once a week with a mentor either on the school grounds or at a nearby location.
