

## Back to School Supply Wish List 2018-19 School Year

Street School relies on office and school supply donations for our classrooms and students. Cuts to education funding have left his budget line item at zero. 64% of student families survive on an income of less than \$27,000 annually and teachers are limited on supplies they can purchase out-of-pocket. Your donations help reduce the stress of back-to-school purchases and make our program the best it can be!

### Supplies ALWAYS Needed
